

Smile Builders Pediatric Dentistry

Making Kids Smile Brighter

Ever since she graduated from dental school, pediatric dentist, Dr. Robyn Lesser, dreamed of having an office with colorful walls and games, a place where her young patients would remember their visits to the dentist as a positive and even fun experience. When she finally got the opportunity to build her own building, after a number of years of sharing office space, her first call was to Flagship Community Bank to ask for help in making her dream a reality.

Flagship Community Bank's team of experienced lenders worked with Dr. Lesser and her contractor to finance development of the site and construction of the building. Then they designed a financing pack-

age that included loans for both her building and her dental equipment on terms that were tied to the collateral's useful life expectancy. The finished product

is a state of the art facility that has everything she had always imagined, and more!

Dr. Robyn Lesser, D.M.D.

“Deciding to build an office and move your business, is never easy. Fortunately, I had Flagship Community Bank on my side”

“Deciding to build an office and move your business is never easy. Fortunately, I had Flagship Community Bank on my side. Their friendly service and flexibility was so different from dealing with a large bank. The Flagship lending staff really took the time to look at my loan and make things as easy as possible. I can't thank them enough,” Dr. Robyn Lesser, D.M.D.

Since moving into her new, brightly painted office filled with cartoon murals, video games and state-of-the-art equipment in June of 2007, Dr Lesser couldn't be happier. Her practice, “Smile Builders” is thriving and a lot of kids are learning that going to the dentist doesn't have to be a “scary” experience.
